

ANNUAL REPORT 2022

L&E-BURKINA FASO

Introduction

The report of the year 2022 in Burkina Faso is based especially on literacy in the national language with the L.E.I. programme.

We had to carry out many activities in different localities of our country. As we have already said, all these activities were carried out in the local language literacy programme based on the LEI method. The activities were carried out as follows:

PROGRAMME OF ACTIVITIES:

- 1 Training of teachers.**
- 2 Implementation of the new classes.**
- 3 Graduation of learners.**
- 4 Literacy of internally displaced persons.**

In the year 2022 we have carried out a lot of activities and works in the framework of fighting against illiteracy in Burkina Faso, the rate of which is higher in our country.

During this programme we have developed strategies to win ethnic groups and reach other social classes using literacy and evangelism, to win souls and make disciples for our Lord Jesus Christ.

1. Teacher training:

In the month of January to April of the year 2022 we had to conduct three literacy trainings that served to train teachers (Teacher Training Workshop). These trainings brought together a total of 70 teachers from different zones and different localities and villages. The training was attended by church leaders, pastors, church members and different organizations in the countries.

2. Implantation of the new classes:

Thanks to this training of 70 teachers, we have managed to open more than 5 literacy classes in the different localities. In the city center, which is Ouagadougou, the capital of Burkina Faso, we have opened 3 classes and in the southern areas of Burkina Faso, we have opened two classes.

With this number of 5 classes in 2022, which includes more than 150 pupils, the majority comes from the center south and the minority comes from the city center.

3. Graduation of learners:

Concerning the number of learners who graduated in 2022, we give thanks to God, with the number amounting to 30 people, male and female. All these learners at the end can read and write. They all received Certificates of Encouragement on behalf of Love Has Feet. Love Has

Feet is our literacy structure which is based since 2017 Ouagadougou which was created by a missionary called Donna Parker Shore.

NB: Most of our learners who have graduated have gone back to school to become teachers. The majority are Christians, and the minority are Muslims.

4. Literacy for internally displaced people:

Me and my assistant who is also my wife.

Literacy of internally displaced persons only means that they are refugees who have been displaced from their region because of the terrorist attacks that our country Burkina Faso is undergoing. Since 2021-2022, our country, our nation, has been confronted with situations of insecurity that have forced women, men and children to leave their villages to take refuge in the capital without shelter. This situation was an opportunity for us to gather them in one place and teach them literacy. The majority are from the extremist Foulani ethnic group. But thanks to God we were able to gather them and teach them literacy, and even get them to accept the Lord Jesus Christ.

We started this literacy programme with these Fulani refugees in January and completed it in December 2022.

The majority of those who received the training were satisfied that they could read the Bible in their own language.

Conclusion:

We are working to promote literacy in our country Burkina Faso. Our vision is to make our brothers and sisters, our mothers and fathers into Disciples for our Lord Jesus Christ.

The year 2022 was a year of blessing, a year of grace, truly a year of fructification for literacy in BURKINA FASO.

Lives are being transformed through literacy, women, men and the whole family are learning to read and write through the LEI method. Several literacy classes are opened and end with the graduation of the learners.

We believe that by the grace of God we will succeed in getting our country out of illiteracy, which is an obstacle to the development of our country.

Project for 2023

Need to print Primers	Moore
Need to print Primers	

1. Teacher Training Program in Bobo with the Fulani.
2. Training program for pastors of different denominations in Bobo.
3. Refresher training for our teachers on the 5 Steps.
4. Teacher Training and Opening of Classes in the City of Dedougou.
